

# GyroShift Downlight

GyroShift technology that can install anywhere

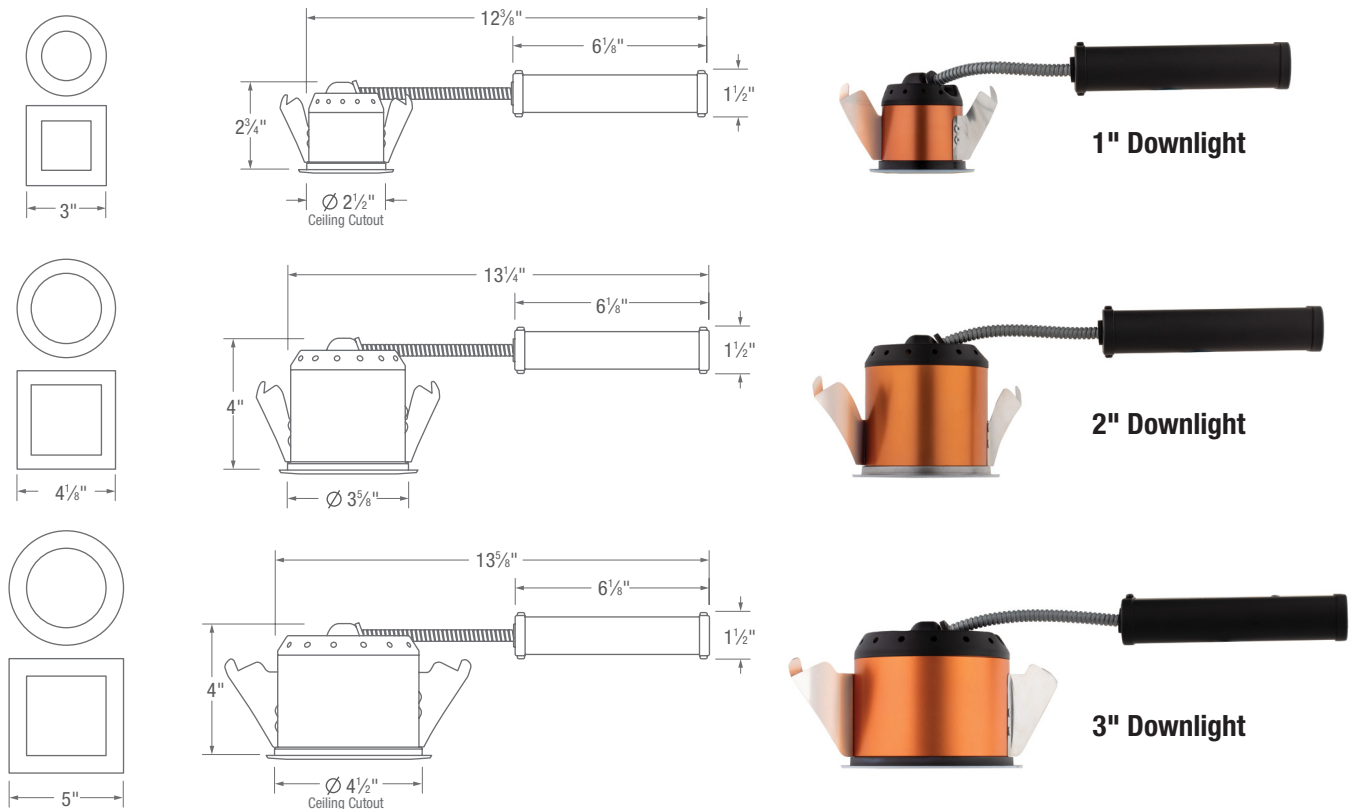

## GYROSHIFT TECHNOLOGY THAT CAN INSTALL ANYWHERE

A different way to downlight, CSL's patented GyroShift™ Downlights feature a unique optical system that allows you to easily adjust a downlight with minimal clipping even at a 45-degree tilt. CSL engineers designed the innovative bezel-and-ball system, rotating the spring-loaded optic system independently from the light source.

Though simple in appearance, GyroShift™ Downlights offer impressive performance and features including: up-to-45-degree aiming with infinite rotation, media options, precision optics, and a refined below-the-ceiling aesthetic. GyroShift™ Downlights excel at high brightness within a compact form factor, accommodating ceiling thicknesses up to 2" while still fitting in shallow plenum spaces as little as 3/2". Though bright, the system is designed to stay cool in the harsh environment of an insulated ceiling in all configurations. GyroShift™ Downlights have been designed for easy installation, service, and aiming.

<b>Construction</b>	Anodized Aluminum
<b>Lumens (Watts)</b>	802lm (10W) • 1183lm (15W) • 1516lm (20W)
<b>Efficacy</b>	80lpw (10W) • 78lpw (15W) • 76lpw (20W)
<b>CCT</b>	2700K • 3000K • 3500K
<b>CRI</b>	80CRI or 90 CRI

<b>Dimming Options</b>	TRIAC • ELV • 0-10V
<b>Housing Options</b>	IC/CP rated foam box • IC/CP rated remodeler • IC/CP rated NC pan
<b>Trim Shapes</b>	Round • Square
<b>Optics</b>	10° (excluding 1") • 30° • 50°
<b>Adjustability</b>	1" downlight adjusts 35° • 2" and 3" downlight adjust 45°
